At Community Summit North America, I was honored to speak with the Dynamics GP community. After the session we received many questions from customers and partners. As the leader of Microsoft's SMB Business Applications (including GP, SL, and BC), I want to take this opportunity to respond to the feedback we received, apologize for any lack of clarity in our presentation, and ensure everyone in our GP community that we are committed to supporting our customers, VARs, and ISVs.

Specifically,

 Microsoft is fully committed to supporting our Dynamics GP customers. This will include new releases (e.g., 18.6, 18.7, 18.8, ...) for the foreseeable future on the same timeline and schedule as we have done in the past several years, as outlined in the GP Modern Support Lifecycle.
